

Bamboo & Cane + Wood

CATALOGUE

The Craft

Bamboo & Cane products are meticulously crafted from sustainably sourced raw-materials that are prized for their quality, strength, and flexibility. Harvested bamboo and cane stalks are split, processed to remove impurities, and smoked using traditional methods to enhance their durability and resilience.

Wooden products are crafted from responsibly sourced wood, chosen for the sole purpose of crafting products from it. Starting from selection to harvesting of mature trees, each log undergoes tedious processing to ensure strength and durability. Highly skilled artisans then transform the material into durable souvenirs and wooden toys renowned for their charm and longevity.

Care Instructions

Keep stored in a cool, dry environment away from direct sunlight and humidity to prevent warping or cracking.

Use a dry cloth or a soft bristle brush for regular cleaning to remove dust and debris gently.

Periodically apply a light coat of natural wax or oil to maintain the luster and moisture content of the bamboo or cane products.

Avoid prolonged exposure to water or moisture to prevent swelling and potential mold growth.

For souvenirs made from wood, avoid placing them near heat sources or in direct sunlight to prevent fading and drying out.

Use a wood polish or conditioner occasionally to nourish the wood and enhance its natural sheen.

Handle with care to prevent scratches or dents; use coasters or pads under items placed on wooden surfaces to avoid scratches and moisture rings.
